5 FINISHES

Silk | With velvet glaze, the surface of the product has a baby like texture, which is also suitable for the table area with more daily contact with the human body. It is easy to clean.
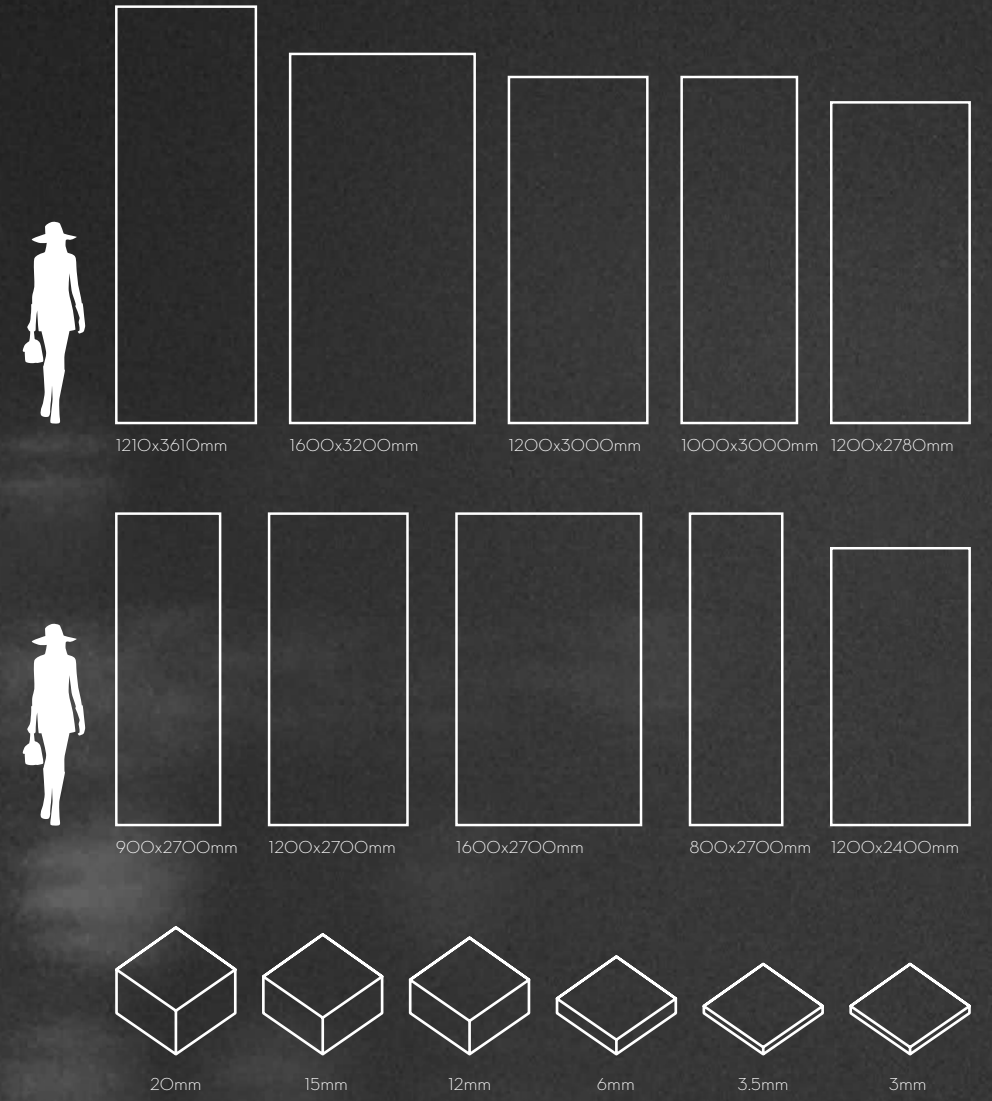

Natural | The fine brushing process is adopted, which has both the concavity and convexity of the texture surface and the softness of the silk wool surface. From a distance, it is simple and elegant, while from a close look, the texture is realistic and delicate.

Digital Structured | Inspired by the natural stone deposited by nature, it has a thick texture and a sense of realism of natural stone, which is the best choice for creating a high-level sense.

Structured | The surface is concave and convex and delicate, emphasizing the unique texture of the product. It is suitable for use in places such as kitchen countertops. It feels comfortable to the touch, and the rich texture has first-rate anti-skid effect.

Polished | It adopts high transparency wear-resistant glaze imported from Italy, with high gloss, solid glaze and excellent permeability.
